

## Hydrobond 500 Technical Data Sheet

Hydrobond 500 is an epoxy adhesive that bonds and hardens to surfaces submerged underwater. This material offers a high degree of flexibility and typically used in a trowellable paste version for patching surfaces such as splash zones on concrete piers.

### PHYSICAL PROPERTIES

Mix ratio	Volume	1:1
Viscosity	cps	8000
Color		Amber
Pot life in a 100 gram mass@ 20°C	min	60
Weight	lb/gal	8.92
